THE PACIFIC SLOPE.

desert, which they were following, held many curves. The District Attorney held to his horse well along a considerable portion of the irregular course, but when he essayed to send his animal quickly around a short turn he failed to lean properly and was plunged headlong to the ground.

SEARCHING FOR LOST SHIPS.

Steamer Washenaw Goes to Aid Distressed Vessel and Now Both Boats Are Being Hunted. (ASSOCIATED PRESS NIGHT REPORT.) SEATTLE, Jan. 19.—The distressed ship William H. Smith, which was sighted Monday north of the Columbia River in tow of the steamer Washenaw, has not yet been reported at Cape Flattery. The steamer Drake, which arrived from San Francisco today, took the same route as the Washenaw and Smith and should have followed them, but saw neither.

CITY OF MILLIONAIRES.

ASK FOR INCORPORATION. (ASSOCIATED PRESS DAY REPORT.) SAN MATEO, Jan. 19.—A "municipality of millionaires" may be put on the State map. A petition bearing the names of seventy owners of real estate here will be presented to the County Supervisors on February 1, asking for the incorporation of the "City of Hillsborough."

ENGINE RUNS AWAY.

MAN KILLED; ANOTHER HURT. (ASSOCIATED PRESS DAY REPORT.) NELSON, B. C., Jan. 19.—A runaway engine, which dashed into the Canadian Pacific round-house, caused the death of W. H. Terry and the serious injury of George H. Jackson yesterday. The engine had been left at the coal pits in readiness to start on its run to Slocum City, and its wheels had been blocked. For some reason the engine reversed, and dashed toward the round-house.

MONEY FOR SCHOOLS.

MAKES APPOINTMENT. (ASSOCIATED PRESS NIGHT REPORT.) SACRAMENTO, Jan. 19.—State Superintendent of Public Instruction Hyatt published today the apportionment of State school funds for the support of the high and elementary schools. The total apportionment to the high schools is \$260,135.97, and to the elementary schools \$2,089,344.64.

ACCUSES STATE OFFICIAL.

SEEKS TO BREAK AUNT'S WILL. (ASSOCIATED PRESS NIGHT REPORT.) OAKLAND, Jan. 19.—Asserting that State Assemblyman Henry M. Beatty employed devious means to wheedle his aunt out of the bulk of her fortune, Miss Elizabeth V. Smith of Napa, niece of the dead woman, has filed suit to break the will of Miss Elizabeth H. Hitchcock, who died in this city on December 28. The charges Beatty with making violent love to her aunt and prejudicing her against the members of her own family.

ALASKAN COUNCIL BILL UP.

WASHINGTON, Jan. 19.—The Alaskan Legislative Council Bill was taken up in earnest by the Senate Committee on Territories today and Senator Dillingham was able to report it tomorrow or Friday. Senator Dillingham asserts that corporate interests in Alaska are so powerful that they would be able to influence the election of a legislature favorable to them, and he will take a firm stand in favor of the proposed council, appointed by the President.

HUGHES TALKS ON INSURANCE.

New York Governor Addresses Many Presidents.

Says Honest Companies Need Not Fear Laws.

Thinks Government Cannot Control Business.

(ASSOCIATED PRESS NIGHT REPORT.)

WASHINGTON, Jan. 19.—At the third annual meeting of the association of life insurance presidents today, Gov. Hughes of New York, addressed the executive officers of life insurance companies, representing 20,000,000 policy holders, and nearly \$4,000,000,000 of assets, and declared his faith in life insurance as an American institution. He stated that no life insurance organization that is honest and economical in its management need fear State control or expect to suffer from legislation.

On the subject of legislative corruption, he said: "I hope the time has gone by when it will be thought necessary to protect interests of life insurance policy holders by efforts to corrupt legislators. Publicity, discussion, fair understanding of what you have in view and what is essential to the proper conduct of this business—these are your guarantees and those are the securities of the policyholders you represent."

"You are not handling your own money, but the savings of the people. You are not responsible for legislation, and you have no duty in any way, by any method, which will not stand full and public discussion, to thwart any attack upon interests committed to your care."

"We must have insurance supervision supported in public opinion. It has been strongly in favor of control by the State of various activities, but no one has realized more than I do that it is important that control should be fair and impartial."

WHITE HOUSE PLEASES HARMON. Ohio Governor Will Consult Wife, However, Before Applying for the Next Lease.

WASHINGTON, Jan. 19.—Gov. Harmon of Ohio was an object of much interest at the gathering of Governors of the States in the east room of the White House yesterday. While waiting with the twenty-nine other executives for the appearance of the President, Gov. Harmon wandered from window to window of the famous old room, gazing out into the grounds.

"How do you like the view, Governor?" he was asked.

"Very much, indeed," he replied. "I understand this house is for rent every four years."

"Are you thinking of applying for a lease?"

"Well, when you go house hunting you usually have to consult your wife first."

ATTACKS PINCHOT THEORY. WEATHER CHIEF'S REPORT.

WASHINGTON, Jan. 19.—There is no relation between the desiccation of the West and the precipitation of rains or floods, or drought. Thus says William L. Moore, chief of the Weather Bureau, in a report made to the House Committee on Agriculture.

Mr. Moore says the run of our rivers is not materially affected by the precipitation, except that the forest, by facilitating evaporation, and entirely restraining all moderate rainfalls during dry weather, may slightly intensify low water conditions.

Further, he says, "the high water is not higher and the low water is not lower than formerly, nor floods of greater frequency."

TESTS FOR FOREIGN SERVICE. WILL FILL MINOR POSITIONS.

WASHINGTON, Jan. 19.—The State Department has established an eligible list from which appointments to minor positions in the diplomatic and consular service of the United States will be made.

In the next six months examinations will be held in Washington to fill the eligible list. On the first three days in March examinations will be held for secretaries and stenographers, and on the last three days, there will be special examinations for the Student Interpreter Corps in China, Japan and Turkey.

Consular Service examinations will be held June 27, 28 and 29.

TWO NOMINATIONS ARE MADE BY PRESIDENT.

WASHINGTON, Jan. 19.—Among the nominations sent to the Senate by President Taft today were the following: To be rear-admiral, Capt. Aaron Ward, U.S.N.

Postmaster, Michael E. Cassidy, Blaine, Ariz.

WASHINGTON BRIEFS. Honor for Mayor Parnell. WASHINGTON, Jan. 19.—[Exclusive Dispatch.] Senator Flint has introduced a bill appointing Mayor W. L. Parnell of Redlands brevet colonel, U.S.A., retired, to rank and grade of brigadier-general.

Seeks Money for State. WASHINGTON, Jan. 19.—[Exclusive Dispatch.] Gov. Gillett has applied to Senator Flint to secure if possible out of the surplus appropriation for San Francisco the sum of \$47,744, which represents the value of army supplies California turned over for relief work. Lack of these supplies has been severely felt, and the money is now needed.

HYSTO literally makes a new man of you.

WORKING FOR UNIFORM LAWS IN STATES THROUGHOUT UNION.

(ASSOCIATED PRESS NIGHT REPORT.)

WASHINGTON, Jan. 19.—Agreeing that there should be uniformity in State laws affecting not only commercial matters, but likewise those that pertain to the well being of the individual, the National Civic Federation at its initial session today, adopted a number of resolutions.

Among them were those recommending to Governors the adoption of uniform laws for the protection of children employed in industries; favoring a uniform insurance code for adoption by several States; uniform legislation on the subject of gathering and preserving statistics; endorsing the conservation of water, and referring the same to the Committee on Uniform State Laws.

The conference further adopted a resolution recommending to Governors now meeting in this city, and to the States themselves, that workingmen's compensation acts, fair to the employer and employee, and just to the State, be uniformly substituted for the present system of employer's liability. A resolution was passed recommending to the respective States consideration of the development of water powers and their regulation on non-navigable streams, with a view to bringing about uniformity of State legislation looking to uniform operation between each State and the Federal Government.

The conference authorized the appointment of a committee of fifteen on

reform in legal procedure, to co-operate with a similar committee of the American Bar Association.

Frederick L. Hoffman, of New Jersey, speaking on uniform vital statistics, declared that the historical fact is dying out, and that, when the blood which makes the revolution possible becomes mixed with foreign blood, there is only one result—decay.

Stephen H. Allen, State delegate from Kansas, aroused enthusiasm for a strong plea for uniformity in legal procedure. He insisted the vital statistics should be set aside, but said it would be difficult to induce lawyers to agree to this course because of their ability through technicalities to win doubtful cases.

George L. Douglas, of the Proprietary Association of America, speaking of the pure food act, said its keynote was "Thou Shalt Not Lie." He thought it was a righteous law.

"What a great thing it would be," he said, "if we had a similar law, applicable to boots, shoes, dry goods, stocks, bonds, newspaper circulations, and many other things. Why should we be encouraged in the food trade only?"

Martin S. Decker, president of the National Association of Railroad Commissioners, was the only speaker to respond when the subject of the regulation of railroads and public utilities came up.

W. C. Breed, of the National Wholesale Grocers Association, spoke upon the needs of a uniform law relating to food and drugs.

maiden name, Elsie Harrison. The complaint is sealed and the contents not disclosed. The suit will not be continued until the parties' interests or children are involved.

VICTIM OF SPIRITUALISTS. Stockton Man Says Couple Caused His Wife to Sell Home and Desert Him.

(BY DIRECT WIRE TO THE TIMES.) STOCKTON, Jan. 19.—[Exclusive Dispatch.] Mrs. Theodosia Arnold, who, according to a telegram, is being sought at Stockton, Ill., by friends, is known here, where she resided up to last September, when she is said to have sold her property for about \$1,000, and disappeared. Her husband, Francis Arnold, was a well-to-do stock raiser at \$150 a month, and had paid for the home, which was in the wife's name.

Mr. Arnold, a man and woman, are said to have secured the confidence of Mrs. Arnold and concocted a story to the effect that her husband had been killed in a fire. While he was away from home she sold the house and lot and departed. She notified her husband that she was going to her relatives in Illinois, but he afterward received letters from her postmarked Sacramento and San Francisco.

Mr. Arnold, who was a stock raiser in California, and who had been in the city where he was last heard of, always claimed the spiritualistic couple cured all of his wife's money a few days after she sold the property.

UP AND DOWN THE VALLEY. PITH OF THE NEWS FROM OUT THE MIDDLE WEST.

(BY DIRECT WIRE TO THE TIMES.) CHICAGO, Jan. 19.—[Exclusive Dispatch.] Ice-covered pavements, consequent to the sudden drop in temperature which followed the cold thaw and rain, impeded the safety of thousands of Chicagoans this morning, but a bright sun and slight rise in the temperature later started another thaw. Today's maximum temperature was 40 and the minimum 18 degs. Middle West temperatures:

FIRE DRILL SAVES LIVES. COFFETVILLE (Kan.) Jan. 19.—A fire drill here today probably saved many lives, when, following the collapse of the roof over a portion of the McKinley school building, 250 children marched from their rooms in safety. Not one of them was hurt. Workmen were repairing the roof when it dropped. Four men were hurled forty feet and three were more or less seriously hurt.

TEACHERS TO STUDY. (ASSOCIATED PRESS DAY REPORT.) CHICAGO, Jan. 19.—A correspondence course, by which the 27,000 Sunday-school teachers connected with the Methodist Episcopal denomination throughout the United States are to be instructed in better methods of teaching, was recommended by the Committee of Education of the Board of Sunday-schools, which began its annual session here yesterday.

CHINESE WOMAN SHOPLIFTER. (ASSOCIATED PRESS DAY REPORT.) CHICAGO, Jan. 19.—"Up to the family of man or woman who shall be imprisoned, shall be brought disgrace" is an ancient Chinese saying, and it had a telling significance when Mrs. Wong Chang, wife of Chin Chang, of the King Joy Lo Company, was arraigned before Municipal Judge Bettler yesterday, charged with shoplifting. Rather than see it affect the future of her two sons and two daughters, the court imposed a fine of \$25 and costs, suspending the sentence of one day in jail he originally had decided upon.

## KAUFMAN USES UP CONFESSOR.

Defeats Old Jack O'Brien in Six-Round Bout.

Big Al Does Not Show Any Championship Form.

Beaten Man Has Lost All His Old-Time Speed.

(BY DIRECT WIRE TO THE TIMES.)

PHILADELPHIA, Jan. 19.—[Exclusive Dispatch.] Al Kaufman, who was once knocked out by Jack O'Brien in seventeen rounds in California, last night at the National Athletic Club demonstrated that he is now a better man than his master of five years ago, but at that he also showed that he is a long way from being a dangerous aspirant for the heavyweight championship of the world because of his slowness and lack of judgment.

Had Kaufman used his left as he should, he might have left O'Brien safe at every stage of the game, for the young Californian had a big advantage in weight and length of reach. He had "Philadelphia Jack" holding for dear life in the sixth and last round, but used such poor judgment in delivering his blow that he failed to do much damage.

O'Brien, who seems to have lost much of his speed as a boxer, is still a very much better boxer than Kaufman, but at times he made Al look silly. Kaufman should have won in the third round. In the fourth round Jack showed right-hand blows, on Kaufman's jaw until he had him groggy, and he might have won the fight had there been any force to his blows, but Kaufman came back as fast as ever for the fifth and more than evened up the score by knocking Jack good and plenty.

The fourth round opened badly for O'Brien, he being sent to his knees by a right on the chin delivered in a break-away, but he came back and came back very fast at Kaufman, in a mix-up a little later both men mixed with right-hand hay-makers and O'Brien went to one knee to save himself from falling.

Kaufman drew first blood, cutting O'Brien's under lip with a right upper in the second round, and Jack squared this score in the fourth by starting clear from Al's nose. During the remainder of the fight both men bled freely, as the contest was a hard one from the start, both trying every inch of the way.

The great crowd of spectators present went wild at the end of the fight for the fact that O'Brien held too much. The general verdict seemed to be that the fight was a telling one for O'Brien and that Kaufman will never be a world's champion so long as there is a really good man to defend the title. Sam Langford and Montana Jack Sullivan challenged the winner.

MORE IN SIGHT.

MEMPHIS AND PICATO WORKING. George Menic and Frank Picato started training yesterday for their ten-round contest at McCarey's pavilion, which is scheduled to be held from tomorrow evening. The boys are good fighters and the local bugs should see a slashing bout when they get inside the ropes.

Memie went out to Eastside and did rough work in the afternoon. Jim Flynn will start work tomorrow afternoon at Doyle's for his fight with Sam Langford on February 5. Flynn stated yesterday that he would be caught napping this time, but would train harder than ever before to meet the dusky Borzian. Langford will arrive here Sunday and may select Arcadia for his training ground.

Charley O'Connell had planned a trip north before he made the match with Webster, and defeat did not deter him for he left for the north last night and will return to Los Angeles later on. He may go on with Frankie Sullivan as a semi-windup for the Langford-Flynn contest. The last fight between O'Connell and Sullivan was good one and the fans have been desirous of seeing them meet again.

James R. Whelan, No. 117 East Seventh street, who asserts that he is one of Jack Dempsey's old sparring partners, declares that he will "agree" to put either Charley O'Brien or that lemon sucker Cameron out in one round and let the whole amount of my share of the purse go to charity." He says further that he would like to put it once on either of the two dubs named and he would be but 140 pounds.

The Jimmy Austin-Royal bout is off for the reason that after making a big noise about wanting to fight, Royal would not even make 112 pounds for Austin and probably would not allow Austin for drawing down his side belt of \$1000.

Jack Johnson has secured training quarters at the Cliff House in San Francisco and will probably begin training there when he has succeeded in getting his license.

SOMETHING STIRRING.

## WOLGAST-NELSON CONTEST TO COME TO LOS ANGELES.

THE Wolgast-Nelson fight of forty-five rounds on February 25, will be fought in this city after all, instead of in San Francisco. This information is authentic for Nat Nelson admitted last night in Memphis that the battle would be transferred here and Tom McCarey, the local promoter, stated that he had wired Nelson yesterday evening that Nelson's demand for \$15,000 for his side was satisfactory.

The fight will be an afternoon affair and is to be in the old Jeffries club arena, which McCarey is to get a lease on for the occasion. As fair weather is more than a possibility for the February holiday date the canvas roof is to be taken off the old building and the probability is that moving pictures of the fight will be taken. This is a detail that can be arranged later on. Charley Flynn will referee.

The reason for the transfer of the fight is that Nat Nelson, the boy promoter of San Francisco, could not get his permit for February and so notified Nelson. Nat in turn wired McCarey of the situation, telling him that it appeared that Hester would not be able to fulfill his obligations and asking if McCarey stood ready to give \$15,000. McCarey telegraphed back last night that everything was satisfactory and consequently the big

match can be considered as for Los Angeles.

The change from San Francisco to Los Angeles has been anticipated for some time and really caused no surprise in well-informed circles. Hester ran a big bluff and was never really serious in his intention to make the fight in San Francisco.

It is doubtful a tyro in San Francisco would police. His backer has some money, however, for he has been able to draw \$1000 expense shortly after the match was made and some of the best articles have been signed. This again revives interest in a match, which is second only to the Jeffries-Johnson fight, for Nelson is the "lightweight champion" and many sports believe that Wolgast is the only boy in the country who can beat him in a long-distance fight. There is little use in speculating on the possible outcome, for no one can ever guess if he can win or lose in any round and the only matter in dispute is whether or not Wolgast is strong enough to go the route. If he is he should win, for he can hit as hard as Nelson if not harder and is a better fighter. Wolgast, manager of Wolgast, has him at a Ventura mountain resort trying to build him up to 125 pounds and if he can there may be a new champion after February 25.

## FOOTBALL IS DOOMED.

Virginia Lawmakers Will Try to Make It an Offense to Play the Game.

(BY DIRECT WIRE TO THE TIMES.)

RICHMOND (Va.) Jan. 19.—[Exclusive Dispatch.] Football in Virginia is probably doomed. Capt. R. S. Parks, one of the most conservative men in the lower branch of the Legislature and himself a football player of prowess in his time, is patron of the bill and no less a person than Senator Earley of Greene county, known as the greatest center rush the University of Virginia ever had, is going to push the bill in the Senate.

The bill as introduced prohibits the game of football or Rugby, making it a misdemeanor to take part in a game, punishable at the first offense by a fine of \$10 and upon second conviction, a sentence of not less than thirty days in jail.

GOAL THROWERS.

U. S. VICTORS IN FINAL GAME.

POMONA DROPS HOT BASKETBALL CONTEST TO LOCALS.

University Cinches Season's Last Game by Margin of Two Points.

Henderson and Loberer Stars—Capt. Henderson Pulls 'Varsity Five Out of Rut and Wins.

U. S. C. 24; Pomona 24.

The varsity basketball five of the University of Southern California defeated the Pomona quintette at Claremont yesterday afternoon by the close margin of two points. The contest was the last of the season for the Methodists team, which stands second in the intercollegiate series.

The university five played circles around the spectators during the opening session and ran up a score of 22 to 13 against the blue and white players. In the final half the home team traced wonderfully and came within a single goal of tying the Methodists.

The determined defensive playing of Capt. Henderson and the clever basket shooting of Gower and Goodsell enabled the university to save the game. Hall threw four out of six free throws from the foul line, while Neals scored two out of five throws.

The Pomona team, which has been the honors for the Pomona five, each player shooting four field baskets. The Claremonters have one more game to play with Whittier. The Quakers easily beat Pomona on the Claremont court last Saturday, and expect to duplicate this performance in the final game.

Capt. Henderson of the university five closed his credit for his generalship and perseverance in keeping the 'varsity together, and closing the season with a hard-fought game. Henderson has played almost the entire season without the support of the students, and the early season practice was disrupted through the attempted dictations of the Theta Psi fraternity.

Yesterday's line-up:

## Study the Records

Advertisers are rather too apt to form their judgments of magazine mediums upon "impressions." Superficial impressions have a certain value, but the diligent study of magazine influence, digging down into the roots of cause and effect, analysis of other people's advertising campaigns—all this is worth while for any advertiser who is "out for blood."

Some concerns are so successful that they can afford to be wasteful and extravagant in their merchandizing, but with most business men every dollar counts and every decision is important.

## WELCOME NEWS TO CITRUS MEN.

QUARANTINE STATIONS ARE TO BE CHOSEN.

Tulare Fruit Growers Are Promised Relief Long Looked For. Gov. Gillett Approves Recommendation and Will Sign the Papers—Great Plans for Banquet of Trade Tonight.

VISALIA, Jan. 19.—Deputy State Quarantine Commissioner Hall of San Francisco, after a meeting with Horticultural Commissioner Schulz, says Gov. Gillett is ready to approve the recommendation of State Horticultural Commissioner Jeffrey to quarantine the county and will sign the papers when presented to him. Next Saturday a meeting will be held in Visalia, at which time the board of trade, the horticultural commission, and the various inspectors present, at which time quarantine stations in Tulare county will be named.

Under the proposed quarantine law the railroads will be allowed to make delivery of citrus nursery stock and vines at certain stations only, where they will be examined by competent inspectors. If condemned they will be returned to the shipper.

Great preparations are being made for the annual meeting and banquet of the Visalia Board of Trade tomorrow evening. A number of local boosters will be on the program for speeches, as well as a number of representative men from other parts of the county.

At the Visalia land office John L. Haas of Visalia has made homestead entry for the southwest quarter of section 24-25-16, Frederick W. Jones of Buena Vista, Cal., has made homestead entry for the northwest quarter of section 25-26-17, Alfred L. Scanlon, Jr., has made homestead entry for the southwest quarter of section 22-21-18.

## GREAT SCARE! HURRIED AWAY FOR TREATMENT.

MAD DOG'S VICTIM LEAVES FOR PASTEUR INSTITUTE.

Canine's Body to Be Examined. Upon Result Rest Lives of Many Dogs at Redlands—Dairy Cows Are Under Strict Quarantine. Also Council Passes a Hurry Ordinance.

REDLANDS, Jan. 19.—[Exclusive Dispatch.] J. W. Walker of the Palace stable, who was severely bitten on the hand by a mad dog Saturday was hurried off tonight on the Santa Fe overland for the Pasteur Institute at Chicago under orders from Dr. Forline, who believed the precaution necessary, though disclaiming that Walker's symptoms are dangerous.

Today the officer received a telephone message from Live Oak Canyon, that the dog, a collie, had died in a hay stack on the Terrill place Monday.

The carcass will be brought to Redlands tomorrow for expert examination, though the medical authorities here state there is no doubt that the dog died of rabies.

Upon the examination of the carcass depends the existence of a large number of dogs in this end of the valley, which were bitten by the canine Friday and Saturday.

The City Council in special session this afternoon adopted an ordinance directing that all dogs in Redlands be muzzled or destroyed. Two dairies in San Timon Canyon, where the dog bit a number of cows, are under strict quarantine.

## MAY LOSE FINGER TIP.

Elsinore Woman Has Painful Accident While Grinding Bones for Chickens.

ELSINORE, Jan. 19.—Mrs. M. L. Root, while grinding bones for chickens in a mill last evening, caught the fore finger of her left hand in the mill. The finger was mangled and cut almost off above the first joint. An effort will be made to save the finger.

Mr. and Mrs. James Hill were called to Pasadena yesterday by the death of Mrs. Hill's aunt, Margaret Collier Graham. Mrs. Graham's husband, Donald Graham, was among the colonizers of the Elsinore and Wildomar Valley, and Mrs. Graham named Elsinore from the Elsinore in Denmark, mentioned in "Hamlet."

## PASSING OF OCTOGENARIAN.

Frederick Moss, Retired, Resident of This City for Quarter-Century, Is Called Home.

Frederick Moss, a well-known old gentleman, who has lived a retired life in Los Angeles for twenty-five years, died yesterday at his residence, No. 225 West Twenty-first street, aged 84.

Frederick Moss, who died in this city yesterday, after a long illness.

The deceased came here from Chicago, and made his home with his daughter, Mrs. Carrie Moss, at the above address. While he was engaged in no active business during all that time, he was well known to a large circle of people, who admired him for his kindly nature and sociability. He leaves three sons in Chicago—Moses, Leopold and Meyer Moss—and one son in Philadelphia, Solomon Moss. Funeral arrangements await word from the sons.

## ELKS AND EAGLES WITHIN LAW.

Oklahoma City Judge Says Organizations Do Not Break Prohibition Statutes.

[BY DIRECT WIRE TO THE TIMES.] GUTHRIE (Okla.) Jan. 19.—[Exclusive Dispatch.] That such organizations as the Elks and Eagles are one large family, and that therefore no violation of the prohibition law can be construed when liquors are kept in a club for the use of members only, is the opinion given by Judge J. J. Beall, sitting in Oklahoma City. It is held by him that if the law is not being violated therefore no search of said club should be made.

## CLIP THIS OUT.

Valuable Prescription When Afflicted With Rheumatism or Backache, Also Splendid Tonic.

At the first sign of rheumatic pain or backache, or a feeling of being generally run down and weakened, the following simple prescription should be used; the results are prompt and cure certain. It will build up the system.

## S.S.S. PURELY VEGETABLE

The safest medicines are those which leave the system in the best condition after their use. This is one of the principal virtues we claim for S. S. S. Being made entirely of roots, herbs and barks, it is not in even the smallest degree harmful to any system, but on the other hand its vegetable ingredients make it one of the finest of tonics to build up the health in every way. A great many blood medicines contain strong mineral ingredients which unfavorably affect the bowels, stomach or digestive system, and any blood-purifying effect they might have is therefore offset by their injurious action on the general health. S. S. S. is the one safe and sure blood purifier. It goes into the circulation and rids the blood of every impurity or pollution. It strengthens the circulation and adds nourishing properties to the blood and greatly assists in the cure of any blood disease. S. S. S. cures Rheumatism, Catarrh, Sores and Ulcers, Scrofula, Consumption, Blood Poison and all like diseases, because it purifies the circulation. S. S. S. may be taken by young or old with absolute safety, and with the assurance that it will cure all diseases and disorders due to an impure or poisoned blood supply, even reaching down and removing hereditary taints. Book on the blood and any medical advice free to all who write.

### DRY GOODS

100 OF BROADWAY BETWEEN THIRD AND FOURTH STREETS

## Final Clearance Hats

\$5.00 and \$10.00

The remainder of this week we offer a large collection of high-class hats at the prices above.

In every case the trimmings alone are worth more than the price we ask.

AMONG THOSE AT \$5.00 ARE HATS WORTH DOUBLE THE PRICE AS MUCH.

THIS SHOW LINE EMBRACES MANY OSTRICH TRIMMED HATS AND OTHER EXCLUSIVE CREATIONS, SOME WORTH UP TO \$10.00.

ALL ARE ARRANGED ON SEPARATE TABLES TO MAKE CHOICE EASY. BUT WE WARN YOU TO BE ON HAND EARLY, THEY WILL NOT LAST LONG AT THESE PRICES.

—Sale today (Thursday) Second Floor—

## Advance Waist Styles

### For Early Spring Wear

There is no suggestion of by-gone seasons' styles about these new lingerie waists; some features they possess are decidedly novel—the sleeve and the trimming, for instance. You should see them. A half-dozen or more distinct styles.

Early Waists at \$1.25, \$1.50, \$1.75, \$2.25, \$3.00, and up.

—Second Floor—

## Sale of Home Furnishings

Big Draperies, Curtains and Bedding are buyable during this sale at 25 to 50 per cent. less than the same goods can be bought for under ordinary conditions.

Savings like these count when one is furnishing a home. For instance:

## Down Comforts

18x30 Satin Covered Down Comforts at \$6.50.

## FIRST BIPLANE BOMB HITS AVIATION FIELD.

### Army Officers Experiment With Annihilation of Imaginary City—Paulhan Takes Wife for Flight Over the Sea—Other Passengers Fly.

EVERY war office in the world was watching yesterday when Lieut. Paul Beck, U.S.A., went up in Paulhan's biplane. To the audience in the grand stand it was only an amusing little game of throwing tiny sacks of sand out of an aeroplane at a white patch of paper on the ground; something like the old game of bean bags; somewhat less interesting than the jolly little joy ride that Paulhan made with his wife to Hermosa Beach and back; not half as exciting as the race between two dirigibles; or the sky trip of Mr. Willson of The Times. But to Lieut. Beck and the two eager young captains of artillery who observed his experiments, it was not in the least like a game of bean bags. It was the raising of the curtain on the war drama of tomorrow.

Beck's flight was the important feature of the most spectacular and exciting day of the Aviation Meet.

Paulhan's flight with his wife, twenty-one miles across country, is understood to break a world's record. It is the longest trip ever made with a passenger. No aviator ever before carried so many passengers in one day; Paulhan carried seven, one at a time.

## ROMANCE OF FLIGHT.

All of these various excitements were caused because M. Paulhan was seized with a sudden inspiration to take people riding on his biplane.

For a week past, every time Paulhan was asked to take passengers aboard, it seemed to cause him acute agony of spirit. He shrugged his shoulders almost out of joint and his face took on an expression as though a couple of pterodactyl germs had driven tandem down his epiglottis.

"Na-na-na," he would cry, "Ver sorry. I kint do it."

Yesterday he became possessed of a desire to take everybody riding. For one afternoon, he lived the life of an aerial omnibus driver.

Among others, he took Lieut. Beck and his mimic bombs; but he began gallantly with his wife.

Madam was wrapped up in a fur hood and cloak like an adorable little Equinox. She climbed in among the wire rigging and grabbed the supports in her two little fat hands and they started.

It was the first little family outing ever taken that way. In thirty minutes they flew to the beach and saw more country than they could have in two days in the old family "horse and buggy." It had an air of domesticity. It suggested future days of papa hitching up the aeroplane while mamma puts on her hat for a Sunday afternoon fly. It was the most convincing, and in a way, the most appealing aeroplane trip ever taken.

In honor of the occasion, the Marquis de Penndreff came out with a helicopter parasol and maintained an excited vigil in the grandstand until the joy riders returned.

She alone knew where they were going. Every one else supposed they were to circle the ordinary course in front of the grand stand.

OUT OVER SEA.

But when they circled the long hill, the aeroplane did not turn, but stood off due west until it dwindled and disappeared into the western sky.

The crowd in the grandstand looked dismayed; then the same thought seemed to strike every woman at once like an epiphany.

And then tenderly cheered for the new Lochinvar of the air.

Presently the announcer belted out the news that the aeroplane was flying directly over Hermosa Beach and standing out to sea.

While that news was still buzzing around over the grand stand the Marquis excitedly scrambled up on one of the seats of the judges' stand.

"Oh," she cried, holding out her hands for field glasses and wildly swinging her helicopter parasol, "One ver small peek, please!"

Over the edge of the western horizon

## GETTING IN NO REPORTS.

As yet no mercantile corporations have made their returns to Collector of Internal Revenue Parker. Most of them close their fiscal year June 30, and are finding it difficult to reach an accurate estimate of their income for the year ended December 31 last. As they have until March 1 in which to file their reports, no serious difficulty is anticipated. B. M. Thomas, chief revenue agent for the Pacific Coast, has been here. The most perplexing details of the execution of the new corporation tax are being gradually solved.

## FROM HIDING PLACE.

WRITES NOTE. SAYS COMING.

ROWELL SENDS A MESSAGE TO TOWNSHIP COURT.

He Declares He's Seriously Sick and Asks Extension of Time—Proposes to Surrender Saturday Morning, and Thus Save His Bondsman from Heavy Loss.

Elmer E. Rowell, a mining promoter, who more than a month ago disappeared while facing trial on five charges of obtaining money under false pretenses, and who left his bondsman to suffer to the aggregate tune of \$11,000, will surrender himself to Justice Stephens at 10 o'clock Saturday morning, according to a written promise made yesterday.

The promise is in the form of a note, on plain white paper, dated yesterday.

## SPLIT BULLET WOUNDS TWO.

### Bluff of a Boy May Cause Another's Death.

### Queer Freak of Lead Pellet Injures Bystanders.

### Fight of Negro With White Lad for Rifle.

Bluffing with a rifle to show that he was no coward, Howard Grannis of No. 1210 Federal street was set upon yesterday by Lemuel Grant, a young negro, with whom he had been fighting. In the scuffle the arm was discharged. The bullet, according to the most plausible theories advanced by the police and the statements of witnesses, took a downward course, struck a rock and "splashed."

George Raymond Wilson of No. 927 Normandie street, the 14-year-old son of E. M. Wilson, was struck by four of the pieces of lead, and probably mortally wounded, while the right leg and ankle of Charles Kendig, a 14-year-old lad living at No. 883 Federal street, was riddled with particles of lead.

The fight took place at the corner of Pico and El Molino streets at about 4:20 o'clock, but was not reported to the police until about an hour later, when a "fast call" was sent in to the Receiving Hospital.

The statements of Grannis, when he was taken to headquarters, are corroborated by those of Kendig, one of the wounded boys.

Though desperately wounded, Wilson was still quite conscious when he was surrounded by detectives and other officials.

Grannis was hustled to the side of the couch.

"Who was it who shot you?" asked one of the detectives of the patient.

"ACCUSED FINGER.

The apparently dying boy weakly opened his eyes, looked indifferently at the circle of faces about him, then, weakly raising his finger, he pointed straight at Grannis.

"That boy, there, for nothing," he said.

The boy's father, almost hysterical with grief, was sobbing over him and murmuring words of comfort, and a detective, seeking to obtain an antemortem statement, was asking George if he believed he was about to die, but the lad paid no heed to either. He closed his eyes, as though he was simply very tired and wished to sleep. The police surgeons shook their heads, and as quickly as possible a solution of salt was injected into the

(Continued on Sixth Page.)

## KEEPING OUT OF IT.

Chamber of Commerce Taking no Official Action on North-South Panama Exposition Dispute.

Inasmuch as the hearing granted to the San Francisco boosters for the Panama-Pacific Exposition, Sunday morning, was an informal affair, the local Chamber of Commerce will not take any official action on the arguments advanced at that time. From the attitude of the majority of the directors, it does not seem probable that the endorsement of San Diego's fair will be rescinded. The general view taken by them is that the difference should be settled by San Francisco and San Diego, and that the Los Angeles Chamber of Commerce is not a party to the dispute.

The northern men will go ahead with their plans for an elaborate international exposition. If San Diego persists in holding its fair in 1915, the San Francisco people will try all the harder to present an exposition that will eclipse all previous celebrations ever held in this country. If San Diego will defer her plans for a year, the commercial bodies of San Francisco are ready to aid the Bay City in every way in their power. It has been suggested that a delegation from San Francisco visit San Diego in hopes of making some compromise. Whatever is done, it is said here that the Los Angeles commercial bodies will try to keep a neutral attitude until final decision is made.

## SEEKING MURPHY.

F. M. Osborn of Superior, Wis., has telegraphed to the Chief of Police for information as to the whereabouts of Ambrose D. Murphy, who was formerly connected with the International Drug Company, sickness in the family is given as the cause of the query.

## STIRRING.

### NEW YORKERS TO BE SHOWN.

### LARGEST Y.W.C.A. IN WORLD ATTRACTS THEM.

General Secretary Will Spend a Month Telling How the Details Are Handled—Local Organization Will Have a Week of Open House and Entertainment.

Miss Cora L. Tatham, general secretary of the Los Angeles Young Women's Christian Association, which organization has forged ahead under her management until it is the largest of its kind in the world, is to go to New York and spend a month telling the Knickerbocker folk how the thing was done.

The board of directors of the national association has honored her with an invitation to deliver a course of lectures at the National Training School in New York on "Association Administration," from February 7 to March 7. Miss Tatham is a practical, convincing and entertaining speaker upon her specialty, and her record in guiding the local association to the top of the list has caused her fame as an organizer to go hand in hand with the fame of the big association. When you talk to her about it, she comes back at you with the "other secretaries" and the "ladies of the board of managers," and a score of other people she can think of, have done the thing, while she has had an humble part.

There is an interesting bit of history back of Miss Tatham's success as a leader. Years ago, when the local association was a small affair, the managers found themselves without a secretary, and put Miss Tatham on the job while they looked for one. They soon began to sit up and take notice; then they stopped the hunt, having found themselves in possession of the rare young woman for whom they were searching, and she has been at the helm from that time to this.

At that time they had a handful of members and rented quarters of an inferior grade; today they have a membership of more than 1000, and a magnificent building and equipment worth near a half million dollars and are doing splendid work in every direction for the young women of Los Angeles.

Miss Tatham will leave for the East

(Continued on Sixth Page.)

## MONEY BACK, WITH BONUS.

### Dollar and Quarter for Every Dollar Subscribed to Aviation Fund.

Although no official statement has been given out, a member of the Aviation Executive Committee said last night that \$125 will be returned to the subscribers to the aviation fund for every dollar advanced. The great crowds of Monday and yesterday assured this.

The financial and other results of the Aviation Meet have been achieved only by the hardest imaginable work upon the part of the committee.

(Continued on Sixth Page.)

## Curtiss Making a Sharp Rise Yesterday Into the Teeth of the Wind.

and efforts at Stephens' courtroom early in the morning.

The envelope bears a print in one corner of the "return in five days" variety, but the name of the individual or firm had been carefully scratched out and then doubly obliterated with ink. The envelope is addressed "Hon. Albert Lee Stevens, personal," and is marked "No answer."

The messenger boy simply handed in the note, evidently acting under instructions, and before it was read he disappeared, thus removing any possibility of gaining information as to Rowell's whereabouts.

The accused man stated in his note that secrecy is necessary to protect the people who have been giving him food and shelter.

ROWELL'S LETTER.

His missive is as follows:

"My Dear Sir, I am suffering an attack of severe illness, which came over me last night suddenly and puts me prostrate for the day. I am informed as to the extension granted on the bonds in my cases, for which I feel profoundly grateful beyond expression. The only purpose I ever had in taking and keeping up the course I adopted was to arrange some business matters which were in a chaotic condition. The causes, which, to my understanding, shaped the necessity for such action on my part are too complex for explanation in this brief note, which I write under great difficulty. I disavow any thought of disrespect for the authority of the court or the phrase 'Up against it,' good and hard, and a fearful necessity compelled me to take drastic measures.

"Last night I was badly stricken and am under a doctor today and may be tomorrow. It is my unalterable intention to surrender myself, and but for this illness would have done so today. I cannot move, so I cannot do this, and as it will serve the ends of a sound justice to do it, I must again beg the favor. I send this to you in absolute good faith.

He signs, "With great respect, I am, sincerely, Elmer E. Rowell."

JUSTICE EXPECTS HIM.

Justice Stephens believes Rowell will surrender himself as he says and thus save the forfeiture of \$11,000 bail put

(Continued on Sixth Page.)

## ROMANCE OF FLIGHT.

All of these various excitements were caused because M. Paulhan was seized with a sudden inspiration to take people riding on his biplane.

For a week past, every time Paulhan was asked to take passengers aboard, it seemed to cause him acute agony of spirit. He shrugged his shoulders almost out of joint and his face took on an expression as though a couple of pterodactyl germs had driven tandem down his epiglottis.

"Na-na-na," he would cry, "Ver sorry. I kint do it."

Yesterday he became possessed of a desire to take everybody riding. For one afternoon, he lived the life of an aerial omnibus driver.

Among others, he took Lieut. Beck and his mimic bombs; but he began gallantly with his wife.

Madam was wrapped up in a fur hood and cloak like an adorable little Equinox. She climbed in among the wire rigging and grabbed the supports in her two little fat hands and they started.

It was the first little family outing ever taken that way. In thirty minutes they flew to the beach and saw more country than they could have in two days in the old family "horse and buggy." It had an air of domesticity. It suggested future days of papa hitching up the aeroplane while mamma puts on her hat for a Sunday afternoon fly. It was the most convincing, and in a way, the most appealing aeroplane trip ever taken.

In honor of the occasion, the Marquis de Penndreff came out with a helicopter parasol and maintained an excited vigil in the grandstand until the joy riders returned.

She alone knew where they were going. Every one else supposed they were to circle the ordinary course in front of the grand stand.

OUT OVER SEA.

## KEEPING OUT OF IT.

Chamber of Commerce Taking no Official Action on North-South Panama Exposition Dispute.

Inasmuch as the hearing granted to the San Francisco boosters for the Panama-Pacific Exposition, Sunday morning, was an informal affair, the local Chamber of Commerce will not take any official action on the arguments advanced at that time. From the attitude of the majority of the directors, it does not seem probable that the endorsement of San Diego's fair will be rescinded. The general view taken by them is that the difference should be settled by San Francisco and San Diego, and that the Los Angeles Chamber of Commerce is not a party to the dispute.

The northern men will go ahead with their plans for an elaborate international exposition. If San Diego persists in holding its fair in 1915, the San Francisco people will try all the harder to present an exposition that will eclipse all previous celebrations ever held in this country. If San Diego will defer her plans for a year, the commercial bodies of San Francisco are ready to aid the Bay City in every way in their power. It has been suggested that a delegation from San Francisco visit San Diego in hopes of making some compromise. Whatever is done, it is said here that the Los Angeles commercial bodies will try to keep a neutral attitude until final decision is made.

## SEEKING MURPHY.

F. M. Osborn of Superior, Wis., has telegraphed to the Chief of Police for information as to the whereabouts of Ambrose D. Murphy, who was formerly connected with the International Drug Company, sickness in the family is given as the cause of the query.

## STIRRING.

### NEW YORKERS TO BE SHOWN.

### LARGEST Y.W.C.A. IN WORLD ATTRACTS THEM.

General Secretary Will Spend a Month Telling How the Details Are Handled—Local Organization Will Have a Week of Open House and Entertainment.

Miss Cora L. Tatham, general secretary of the Los Angeles Young Women's Christian Association, which organization has forged ahead under her management until it is the largest of its kind in the world, is to go to New York and spend a month telling the Knickerbocker folk how the thing was done.

The board of directors of the national association has honored her with an invitation to deliver a course of lectures at the National Training School in New York on "Association Administration," from February 7 to March 7. Miss Tatham is a practical, convincing and entertaining speaker upon her specialty, and her record in guiding the local association to the top of the list has caused her fame as an organizer to go hand in hand with the fame of the big association. When you talk to her about it, she comes back at you with the "other secretaries" and the "ladies of the board of managers," and a score of other people she can think of, have done the thing, while she has had an humble part.

There is an interesting bit of history back of Miss Tatham's success as a leader. Years ago, when the local association was a small affair, the managers found themselves without a secretary, and put Miss Tatham on the job while they looked for one. They soon began to sit up and take notice; then they stopped the hunt, having found themselves in possession of the rare young woman for whom they were searching, and she has been at the helm from that time to this.

At that time they had a handful of members and rented quarters of an inferior grade; today they have a membership of more than 1000, and a magnificent building and equipment worth near a half million dollars and are doing splendid work in every direction for the young women of Los Angeles.

Miss Tatham will leave for the East

## MONEY BACK, WITH BONUS.

### Dollar and Quarter for Every Dollar Subscribed to Aviation Fund.

Although no official statement has been given out, a member of the Aviation Executive Committee said last night that \$125 will be returned to the subscribers to the aviation fund for every dollar advanced. The great crowds of Monday and yesterday assured this.

The financial and other results of the Aviation Meet have been achieved only by the hardest imaginable work upon the part of the committee.

## Blacksmith Sits in Front of Mirror and Carefully Blows Out His Brains.

Less than an hour after W. L. Foley, a mining blacksmith, had joked with acquaintances at his mid-day meal, he shot himself through the head in his room at No. 110 Market street, yesterday.

Foley had been a high-liver and, although only 43 years old, realized that "Old John Barleycorn" had almost mastered him. For the great part of the last two months he was an inmate of a sanatorium at San Diego.

To make sure that he would not make as great a blunder of his attempt to die as he had of his life, the blacksmith sat in a chair and aimed a revolver at his right temple by looking in a mirror. The shot went through his head and lodged in the wall.

The sound of the shot was not heard by other guests in the rooming-house. A chambermaid discovered the lifeless body when she went in the room to make the bed.

Coroner Hartwell directed Orr & Edwards, undertakers, to take charge of the body.

## THE POLITICAL WATCH TOWER

To prepare for a gambit in April next and to get together as many ends of the St. Vitus's dance as possible, the Democratic

conference of Los Angeles county as it may be possible to hold so as to later hand them to T. Dore, Bell, conference of silk-

stocking Democrats was held in the Fay building in the office of Albert M. Norton, chairman of the County Committee, Monday afternoon. None but the fol-

lowers of the Dore-Goo programme were invited, and none others attended.

The conference was a secret one. Chairman Norton outlined the plan after he had fully explained that there was "no slate." His programme, however, provides for calling together

members of the County Committee who are known to be in sympathy with the movement to again name Bell for Governor, and to instruct to these com-

mittees the naming of all the Democrats who are to be permitted to attend the State conference in Los Angeles, April 24.

This arrangement somewhat upsets the idea of Joseph H. Call, whom some of the Democratic chiefs are backing for the gubernatorial em-

pire on the Democratic ticket. A few days ago a committee—self-appointed—waited upon Mr. Call and urged him to enter the lists against Bell. They argued that Bell was a political "dead one," and that he is by far a much

more humane treatment of the Chinese in this country, and respect for our treaty obligations, which have been annulled by them.

So we thank The Times for its bold and broad stand on this question, and appreciate the help.

P. S. YAGER.

## PERSONAL.

A. H. Harper, a gentleman of San Diego, is registered at the Nadeau.

R. E. Creswell, a grain broker of Seaford, Ont., is passing a few days at the Van Nuys.

John M. Ross, a well-known mining man of Prescott, Ariz., is a late arrival at the Alexandria.

W. C. Davis, a wholesale grocer of Tacoma, Wash., with his wife, is at the Lankershim.

John H. Tate, a mining broker of Goldfield, Nev., is a late arrival at the Hollenbeck.

F. D. Talmadge, who has mining properties near Victorville, is a guest at the Hayward.

A. A. Bartlett, merchant of Watertown, C. D., is at the Nadeau for the week. His wife accompanies him.

B. T. Dyer, who is well known in oil circles, is registered at the Hayward from Bakersfield.

W. H. McAllister, accompanied by his wife and Miss Amelia McAllister, is at the Lankershim. He is a real estate dealer of New York City.

W. C. Davis, a real estate dealer of New York City, is a late arrival at the Angelus. He is accompanied by his wife.

## 6% Paid on Your Monthly Savings

We have many investors who are saving a regular amount each month, and placing the same with us, where it will earn 6 per cent. for them.

In a year's time, 6 per cent. on your savings, instead of 3 or 4 per cent., makes quite a difference. Take the amount you are now saving monthly and figure how much more money you would have if last year your savings had earned 6 per cent.

We offer the small saver, as well as the large one, many advantages over other forms of investment. Your money may be withdrawn at any time, and the principal is safeguarded by our more than \$2,500,000 Assets, and a special Guarantee Capital of \$100,000.

## VIOLATE LAW TO KEEP WARM.

Railroads by Selling Their Coal to Fuelless Towns Break Com-

modities Clause.

(BY DIRECT WIRE TO THE TIMES.) CHICAGO, Jan. 19.—[Exclusive Dispatch.] Aside from the havoc wrought with train schedules and the immense added expense of operation caused by the recent period of bad weather, many of the railroads, according to a member of the legal department of one of the largest western roads, in the last few days have been brought face to face with a condition unique in their history.

That is, they have been brought face to face with the necessity of violating the provisions of the commodities clause.

"By the terms of this clause," said the railroad lawyer, "it is made unlawful for any common carrier engaging in interstate commerce to sell any commodity, except lumber, in which it has any interest. But during the last few days many of the towns reached by the railroads have almost entirely depleted their stocks of coal. They had to have coal to run their electric plants and other public works. To meet this condition the railroads have sold their coal to the towns, and one of them of which I know wrote to the commission,

stating that the law was being violated, but that it was a public necessity and that it would keep on."

FAIR CO-EDS TO CIDDLE BABY.

Girls in Missouri State University Will Get First Lesson in Care of Children.

(BY DIRECT WIRE TO THE TIMES.) COLUMBIA (Mo.) Jan. 19.—[Exclusive Dispatch.] There is a baby boy in Columbia who is envied by every male student at Missouri State University. He has been elected to be petted, coddled and dressed by thirty-five fair co-eds of the home economics class. The demonstration will take place tomorrow at Parker Hospital. He will be the only boy present.

The occasion will be first of a series of lessons Dr. Edna D. Day plans to give girls in the care of babies. A faculty member gallantly came to the front with the desired infant for experiment.

The teacher is searching for a philanthropist who will endow a school of baby culture and she also announces that half a dozen babies as permanent subjects will be necessary to the laboratory equipment.

## VILLE DE PARIS

AFUSENOT CO

New Arrivals in White Wash Goods

It is not surprising, that our new line of white wash goods for summer wear, is calling forth so much admiration from those who have already seen it.

We are showing the reigning favorites of fashion in our assortments of

Novelties in White

Which includes the following weaves: Marquissettes, crepes and French veilings.

Prices range from 75c to \$1.25 yard. These materials are especially adapted for making high-class waists.

We invite your inspection today.

Entered at the City Postoffice as mail matter of the second class.

## Editorial Points

This is the land of zephyrs and not of big winds.

It is a remarkable fact that there are six bankers in jail to one saloon-keeper.

The Harding Davies are merely another prod to the question: "Should artists marry?"

Besides being a pretty and a rich girl, Miss Marjorie Gould seems also to have good sense.

Today marks the finish of the "meet," but by no means the end of the airship in Los Angeles.

We should not wonder if today brings out the record-breaking crowd at the field of the flyers.

It remained for Los Angeles to put the airship on the map, or over the map, as we might say.

It is an ill wind that blows nobody good. The elections in England have stifled the suffragettes.

We wouldn't wonder if the day were yet to come when men would go hunting wild geese in airships.

Next comes this "made in Los Angeles" exposition of successful heavier-than-air flying machines.

This is the latest: "It is better to have been blooded and bled than never to have been blooded at all."

Paulhan broke the speed records, as did also Curtis, but the police do not seem to have taken any notice.

It is now contended that large feet are evidences of brains. Certainly they are evidences of good understanding.

Lots of us have lived here a long time without having seen the place to the same advantage that Paulhan has seen it.

It would seem that Richard Harding Davis has had other troubles on his hands besides South American revolutions.

From the ex team to the aeroplane—and Los Angeles has leaped that fateful and historic span in the space of 125 years.

A Philadelphia doctor declares that pigs make the best playmates for children. Surely street-car hogs are not included.

As far as we can learn from observation and statistics, the men who now tell their troubles to policemen are rarely farmers.

We would naturally suppose that the hookworm disease, which is the cause of laziness, is most virulent in the spring of the year.

"The important political question in Oregon is the tax question," says the Baker City Herald. The same is the case everywhere.

It is hard to say how many kisses and handshakes Louis Paulhan has received; but, no matter how many, he deserves them all.

There are really so few rainy days in Los Angeles that not one man out of ten knows the prevailing style of women's hosiery.

As time passes and goes forward, the desire of the people of the United States to elect William H. Taft to another term will increase.

In offering our congratulations to young Mr. Drexel of Philadelphia the best we wish him is that Miss Marjorie is a good deal like her Aunt Helen.

Thirty bankers in a row in the Leavenworth jail rather disprove the charge that there is one law for the rich and another for the poor in this country.

We are now inclined to the belief that the Liberals will pull through in the same way that Schneider got into heaven—by a "lam tight squeeze."

Not having heard a roar from the ultimate consumer lately, we take it that he is either making ends meet or has determined to have a good time anyway.

It would not be fair to say that other makes of flying machines are without merit, but the general impression seems to be that the kind Paulhan uses are feasible.

If the same sympathy exists between liars that is said to exist between thieves, Dr. Cook (or Koch) ought not to lack a welcome in any part of the civilized world.

According to the evidence, Mrs. Christy was a hard drinker. Wonder if these women who drink had never done so whether there would be the same number of divorcees?

In handing out the prizes and the badges it is pleasant to dwell on the fact that red, white and blue colors are as appropriate for France as they are for our own United States.

Looking far off under the flights of airships and things, we behold the thrilling spectacle of "Red" Hayes at Washington, D. C., hanging around the White House door waiting for a chance to get in.

Of course we are all forced to take the word of the scientists for the statement that Halley's comet is traveling at the rate of 1,648 miles a minute, but there are a lot of other things that we can believe with greater ease.

Only a few years ago Aviation Park could have been located easily where Hamburgers' big store now stands. In a few years again Dominguez Field will not be available owing to the crush of bungalows thereon.

## A GREAT PACIFIER.

In a way the flight of M. Paulhan over the site selected by the government for fortifications at San Pedro was the most significant event of the aviation meet now going on here, the first in America. In another flight this intrepid Frenchman had climbed the skies to a height of about 4600 feet. He can carry in his machine at least two passengers with himself, say a weight of 300 pounds.

Now let us imagine a war between two continuous belligerents. With a fleet of these flying machines it would be an entirely simple matter to drop from them over the forts and camps of the enemy, over the cities of the hostile country, packages of high explosives, each one of which would wreck a fort. A few of them scattered judiciously would do terrific havoc in the camp of the soldiers or destroy millions' worth of property in the cities.

At this moment there is no defense against such an attack as that. No projectile can be hurled a mile into the sky which would interfere with the career of a flying machine equipped for war purposes. It would be difficult to meet a hostile fleet of airships with a similar one belonging to the other side. Of course they would not fly in fleets, but singly. Their movements could be easily concealed until they reached the sky, and when they were over the fort destined for destruction or the city which was to be a prey to the ravages of dynamite it would be too late to meet the emergency.

Had we at San Pedro a fortification costing \$1,000,000, Paulhan might have destroyed it at a cost of very few dollars. Fortunately for us our territory is of such an extent that our immediate neighbors are so inconsiderable in strength that we are almost immune from an attack like that. But in Europe, with France and Germany touching elbows, or Austria and Italy in the same relations, war with a well-developed equipment of flying machines would mean the devastation of populous cities, the destruction of the strongest forts, and a cost that would require fifty years to make up for. It would seem as if these possibilities were the most important feature of this new mechanical device capable of being converted into such a terrible engine of destruction.

## TAKING BACK TRACKS.

So the hotspur "insurgents," from the Hon. Gifford Pinchot down to the Hon. "Red" Hayes and lesser honorables and into the list of dishonorables, are beginning to see that they have gone off half-cocked. The great contention rages around the person of Mr. Taft, when you get to the bottom of the affair. The allegations from all sides, some open, others covert, were that the President was not only uninterested in the preventing of the obtaining of power sites, coal lands and other sources of wealth in the public domain, but that he was actually conniving at these frauds. That was just exactly the inside meaning of this whole tempest in a teapot.

Now we have Mr. Pinchot himself frankly declaring that the President is entirely right in almost every recommendation he has made to Congress. We have Mr. Hayes of California and other members of the same mock-impetuous, insincere temperament, running to the White House to make their peace with the Chief Executive. Hayes and the others confess to the fear that they have gone too far, that they are endangering the solidarity of the Republican party, and thereby endangering the continuance of the party in power. That means that the whole programme tends toward turning the Federal government over to the Democratic party.

Little wonder any one with the slightest spark of Republican principles in his mind is dismayed at such a possibility. The policies of the two great national parties are so radically different that no man with the power of thinking straight can escape the conviction that the property of the country depends upon which party is in power. To turn over the Federal government to the Democratic party would mean a recrudescence of all the conditions existing in the country between 1892 and 1896 under the only Democratic régime this country has been afflicted with in a period of half a century. We are all near enough to that episode not to have lost sight of its significance.

The open cry of these "insurgents" in regard to the very point of this contention, the investigation of Mr. Ballinger's administration of the General Land Office, was for a fair trial of the case, and making public all the facts. Where the fear of an unfair investigation came from is impossible for unexcited people to conceive. Now Hayes and the other hotspur "insurgents" begin to see that the clamor is likely to result in a very unfair trial of the case, or at least in the making of a fair investigation exceedingly difficult.

By taking the appointment of the committee out of the hands of the Speaker of the House of Representatives and imposing that duty upon the House itself, of course immediately the body separates into its two political factions and both sides claim the right to name the party members who shall take part in this investigation. In other words, this great hubbub about having a fair committee turns into a farce. The House is not to appoint this committee; the political parties in the House are to do it. If the House as a body were to pick the members of the investigating committee, Ollie James and Rainey would not be on the committee. The House as a body would pick a fair trial of the case. The minority would be represented upon it. If Mr. Cannon had picked the committee he would have given the minority representation thereon, but we venture to say that both the Republicans and the Democrats on that committee would have been fair-minded, just-minded men.

As it is, the naming of the committee goes into party caucus. The Democrats always pick the trigger, have already named two and appointed two of the most unfair partisans in Congress to represent the minority. From the time that committee first sits until its report is brought in there will be nothing but populist politics on the part of James and Rainey at every moment of every sitting. It is probable that in the end, whatever report shall be made, these gentlemen will present a minority finding to Congress. It will simply result in confusing the minds of the people and leaving the unreasonable part of the population in doubt as to whether the investigation was full and fair or not. For two years past we have seen the danger that now flashes into the line of vision of Mr. Hayes and others of his kind. This whole insurgent programme from the beginning has had but one effect and can produce but one result. Whatever influence it may have in all against the Republican party, it is against its principles, all against its success, and all in favor of Democratic principles, of Democratic victories, of Democratic administration of our national affairs. Near home and far away, every movement of these people is in favor of Populism and of Populists and against everything that is conservative and everything that is Republican.

Many of these "insurgents" came from Congressional districts and whole States where Bryan Populism was rampant within the last twenty years and where that craze has not died out yet. What Republicans expect to gain by encouraging this sentiment and fanning this hostile flame into activity is not apparent. They may think to save their seats in Congress by pandering thus to Populism. If they have any such dream they will wake up out of it as from a nightmare. The success of this sentiment means one thing and one only, and that is the return of Democrats to Congress, the election of Democratic Senators, and in the end a Democratic President.

## COMING UP!

## THE SIXTEENTH AMENDMENT.

A proposition is before the States to pass the sixteenth amendment to the Federal Constitution. This amendment will give to Congress authority to tax "incomes from corporations of all kinds and forms." To confer this power upon Congress will require an affirmative vote on the part of three-quarters of the States in the Union, to wit, thirty-five commonwealths.

The States are very slow to act upon this proposition, and the rush with which it was expected to pass a sufficient number of the States is nowhere in sight. Gov. Hughes of New York in his annual message to the Legislature gave it a severe if not a death blow. The Governor of New York is not one of the sinfully conservative members of the Republican party. He is generally looked upon as sufficiently "progressive" to pass muster. His view, therefore, will carry all the more weight with insurgent Republicans and populist Democrats. Gov. Hughes's objection to the law is based specifically upon the fact that there is no exemption provided for State and municipal bonds. The Governor of New York thinks the amendment, if passed, would put too great power in the hands of Congress. The power to tax is the power to destroy.

Some of the Democratic politicians of the country belittle the objection raised by Gov. Hughes. Among these are the Governor of Mississippi (a rank Populist) and the Governor of Ohio (a conservative Democrat as Democrats go). They are willing to trust Congress, although empowered to tax incomes from all sorts of corporations, to exclude State and municipal bonds.

As the outlook is at the present time, it would appear as if about a dozen States were pretty sure to vote "no." Eleven would give the coup de grace to the amendment. The States may take as long as they like to vote upon this proposed amendment to the Federal Constitution. Legislatures of this year may pass it over to those of next year, and those of next year to a further date in the future. Meantime the States may reconsider such action in another session of their Legislatures, those that may have voted for the amendment rescinding the action, and vice versa. If a dozen States should take no action at all, then the amendment would fail. Until the Secretary of State can certify that thirty-five States have voted for the amendment it will not pass.

We have never been able to take any other view of this proposed amendment than that it is a political subterfuge intended as a tub for the populist whale to play with while a more important matter got out of sight, namely, the proposition to tax all incomes. It is always worth bearing in mind that the President's message which recommended the passage of such a law did so with specific limitations. Mr. Taft pointed to the possible desirability of conferring this power upon Congress in case of a war arising in the country which would necessitate the raising of funds to carry on the struggle. The raising of funds to carry on the struggle is always worth bearing in mind that the President's message which recommended the passage of such a law did so with specific limitations. Mr. Taft pointed to the possible desirability of conferring this power upon Congress in case of a war arising in the country which would necessitate the raising of funds to carry on the struggle. The raising of funds to carry on the struggle is always worth bearing in mind that the President's message which recommended the passage of such a law did so with specific limitations. where he circled out over the bathhouse and over the bay. He sailed directly over the offices of the Pacific Coast Steamship Company on Wharf No. 3, a distance of about 1000 feet from the shore, and then on toward Chiffon, where he turned toward Aviation Field.

When the aeroplane first appeared the whistles of the tug Redondo and other vessels in the bay were blown to attract the attention of the residents and soon all Redondo was airship gazing.

The noise of the motor of the airship could distinctly be heard as it soared above.

Paulhan sailed over the ocean for a distance of about a mile, at times going out from shore about half a mile.

### VENICE CELEBRATION.

VENICE, Jan. 19.—In memory of the birthday of Robert E. Lee, the United Daughters of the Confederacy celebrated the anniversary here this afternoon. Participating in the affair were members of three chapters of the organization, the celebrants coming from the Robert E. Lee, Wade Hampton and Jean H. Hagan organizations. The exercises were held at the auditorium on the Windward-avenue pier, and opened with a reception. The address of the afternoon was delivered by Baker Baker Lee of Los Angeles. This was followed by a musical program, which was presided over by Mrs. G. Waite.

## We Are Sole Los Angeles Agents for Women's Holeproof Hosiery

So great is the demand for this justly-famous guaranteed hosiery that it is seldom we can get quantities enough ahead to advertise the fact. Just now we've all sizes in women's black or tan holeproof stockings, and can fill all orders for some time to come, we think:

Every pair of Hole-proof stockings is guaranteed for six months' satisfactory wear; if any pair goes into holes within that period, simply return them to the dealers, and they will be replaced by new stockings, free of charge. The best feature about these Hole-proof hose is the fact, however, that the guarantee is seldom used—they wear so splendidly.

Two qualities—two dollars and three dollars a box.

### Suits to Your Measure

A display window is devoted to a showing of new and stylish suitings, and to models showing the class of work we do. And we want to emphasize it as strongly as possible—that we do the same first-class work on an inexpensive suit that we put into the finest one we make. Let us prove it to you:

We will make suits to your own measures, in newest spring styles, coats lined with guaranteed linings; your choice of black, cream, blue, green or brown serge, or novelty suitings in stripes and tiny checks, for only ... **\$37.50**

From new suitings in soft greys, tans, taupe, green or navy, we will make suits to your measure, coats lined with guaranteed lining, complete for only ..... **\$45.00**

New—Bedford Crepe—Ours exclusively in Los Angeles; a brand new 44-in. silk with a shimmering crepe effect which is indescribably handsome; shown in ceil (sky), apricot, ivory, champagne, chamois, rose, pink, maize, lilac and black.

This material will be extensively used for evening and reception gowns this spring—and you can buy it nowhere except at **Coulter's. \$3.50**

### New Barettes, Bandeaux, Etc.

You'll find here every stylish and correct accessory to the becoming dressing of the hair—fancy barettes, bandeaux and like things in shell:

Among the newest arrivals are braid pins, with square or rounded corners; new barettes, some of them hand-carved—all made in first-class manner, with guaranteed unbreakable catches; and many very ornate styles of barettes and bandeaux, set with rhinestones and like jewels; some novelties in Etruscan gold, set with quaint stones; handsome pins, barettes and bandeaux of jet; styles also in pearl grey and amber, as well as the shell—in short, everything that is new and really worthy, finds full representation in this Section, at very modest prices. Prices for barette begin at 25c; for bandeaux, \$2.25 and up.

## RAILWAYS IN ARIZONA. CONSTRUCTION WORK PUSHED.

Many Lines Are Being Built in Arizona.

Southern Pacific Repairing Phoenix Branch.

House and Swansea to Be Completed Soon.

(BY DIRECT WIRE TO THE TIMES.)

PHOENIX (Ariz.), Jan. 19.—(Exclusive Dispatch) Just now, much is doing in the way of railroad construction in Arizona and even more is being prepared for. One very significant bit of work now in progress is the rebuilding of the Maricopa and Phoenix branch of the Southern Pacific between Maricopa and this city. Several hundred men are taking up the old sixty-pound steel and laying seventy-five-pound Carnegie steel. The track is being raised eight inches on gravel ballast, secured from the bed of Salt River near Tempe by stream shovel. This road, by acquisition of the Phoenix and Eastern, has double track between Phoenix and Tempe, eighty miles.

It is understood that the speed he has made in the betterment of this all-weather good connection between Phoenix and the Southern Pacific main line is due to the plans for shifting the routing of one of the main lines through Phoenix. The Santa Fe cut-off of May 1 and soon thereafter the Santa Fe will establish over it through fast freight service between Phoenix and Los Angeles. Then it is reported, the Southern Pacific, utilizing rights already secured for, will begin the handling of through San Francisco to eastern business over the Santa Fe from Mojave to Phoenix over Santa Fe tracks, joining the Santa Fe at Maricopa, and returning to the main line at Phoenix. The change would save about seventy miles of distance and heavy business. As is well understood, later the Southern Pacific will build its Gila Canyon line, thus giving an alternative route through Arizona with much better grades than along the present line.

About a third of the ninety miles of the Parker-Bengal cut-off is now complete and business is being done over twenty-five miles. The terminal station is at the junction, to which point a wagon road, twenty-five miles long, is being built from the main settlement of the Blythe tract. It is probable that this wagon road will be followed by a branch railroad. Other stations on the Bengal road are at Blythe, just across the Colorado River from California, an ambitious new town, eight miles from Parker, and Yuma, fourteen miles distant from the river.

The House and Swansea Railroad is to be completed in a month. This line will be about twenty-five miles long, giving the smelter camp of the Santa Consolidated Copper Company rail connection with the Arizona and California branch of the Santa Fe. The grading has been completed and the track-laying has been done. Two locomotives are employed on construction work and a third has been ordered. It is declared that the Clara smelter will start operations as soon as the railroad is finished and that the company will have a pay roll of at least \$500,000 within a few months.

The Phoenix and Eastern Railroad is being extended up the Gila Canyon to Christmas, to handle ore shipments of the Gila Consolidated Copper Company, but its further extension through San Carlos is dependent upon the decision of the Interior Department on the application for right of way in a low line, something that is being fought by interested parties at Florence, Col. Randolph, in charge of construction, has written: "We will, under no circumstances, build a high-grade line through this country. We think that you can safely judge that no one else ever will."

COMPLETE BROAD-GAUGE ROADS. The new broad-gauge roads of the Ray Consolidated Copper Company from Kelvin to Ray and from the Phoenix and Eastern to the immense copper concentrating mill at the copper building near Kinkaid, are about complete. There is a strong probability that a narrow gauge feeder will be built some up Mineral Creek from Ray, to tap some of the richest copper mines in Arizona, and connect with the Pinal. Added to this is the prospect for a broad-gauge line from Winslow into the Copper, Creighton and Mammoth districts. All these districts are tributary to Phoenix, and already are sending an immense volume of business to this city.

It has been denied that the Southern Pacific has finally determined upon the route that shall be taken by its new Durango-Arizona road down the edge of the Mogollon plateau, the most difficult of all the sections surveyed. The route thus far planned is practicable, but has grades which it is hoped may be reduced, however, by surveying parties are working in Tonto Basin, hoping to gain elevation by building along the western slope of the Sierra Ancha Mountains, which about upon the great Mogollon Rim. This rim is precipitous, and some of the miles, usually more than 1000 feet in height, and is cut by watercourses at only a few points.

Seven hundred men are employed on the grading of the Tucson-Nogales cutoff of the Southern Pacific company, and it is announced that the line is to be completed to the border in June. Eight of way for the entire distance has been secured, past a dozen mining camps that were settled by the earliest of the Spaniards. Grading has been completed to a point about thirty miles south of Tucson. In Tucson it has been reported that the Southern Pacific is about to build new shops, the present shop buildings being old and inadequate.

The survey for the double tracking of the Santa Fe between Winslow and Ash Fork has been completed, and the entire distance has been given to the Santa Fe. Much of the material is in the ground already, and the construction will begin as soon as the weather moderates a bit.

Lately, on account of cold weather, Flagstaff had a water famine several days of last week. Because of the lack of water, four locomotives died in the Flagstaff yards until water could be shipped in tank cars from Salt Lake.

Two miles of track were washed out on the Grand Canyon branch at the height of the last floods in that locality, and trains were held up for three days.

Near Hillsdale station, on the Santa Fe, Prescott and Phoenix Railroad, a passenger train was wrecked by a car jackknifed on the falls. The engine pilot pushed the obstruction about 100 feet, when the train was stopped without injury.

## SPLIT BULLET.

(Continued From First Page.)

boy's breast in an attempt to revive him so that he could stand the shock of the necessary operation.

M. Paulhan and R. H. Willson  
of The Times staff starting on their flight.

disposition to take part in contests on the course, and despite the repeated urging of President Bishop and the committee, he has refused to do more than a few try-out stunts daily and has permitted the Frenchman to win the plaudits of the crowd. Two or three times he had made tea laps of the course and single laps for speed, but has done nothing to compare with Paulhan's work in flights for height or cross-country stunts, which have endeared the latter to the people.

Today Curtiss has the opportunity to redeem himself and take with him the well wishes of the people. If Paulhan starts in his record-breaking trip for endurance and distance, the tableau prepared by the Aviation Committee may be postponed until late in the afternoon, as Paulhan's presence is desired, but the record in the great thing and everything will be sidetracked for that.

Paulhan's stunt yesterday in going to Redondo and back, a distance of twenty-one miles, carrying a passenger, sets a new American record for an event of that kind. A record today would be a fitting finale to his visit in Los Angeles.

AVIATION EVENTS.  
Cross-country flight: Louis Paulhan and Mme. Paulhan.  
Left Dominguez at 2:33:08 3-4 o'clock.  
Circled over Redondo and Hermosa Beach.  
Returned to Dominguez at 3:08:33 4-5 o'clock.

Elapsed time, 35m. 45-5-5.  
Estimated distance, 21 miles for round trip.  
Paulhan and Clifford B. Harmon later went in same direction, but gave no notice of starting, officially. Time and distance were not recorded.

WITH PASSENGER.  
Paulhan and one passenger: First lap, 2:45 3-5; second lap, 2:47 5-5; total, 5:32 8-5. Other circuits with passengers not timed.

LAPS AGAINST TIME.  
Curtiss: 2:23 4-5, 2:19 4-5, 2:19.  
Hamilton: First lap, 2:47 5-5; second lap, 2:47 5-5; third lap, 2:51; total time in air, 11m. 11-5.

BOMB-THROWING TEST.  
Paulhan and Lieut. Paul W. Beck: First lap, Beck threw bomb 55 feet over the square; second lap, Paulhan threw bomb 115 feet over square; third lap, Beck threw bomb on a line with square.

TRIAL FOR HEIGHT.  
Hamilton stayed up 14m. 53 2-5, and went to estimated height of 655 feet (unofficial).  
Hamilton in another attempt went up 530 5 feet in 5:04 2-5. (Note—Hamilton evidently went higher, but at point agreed upon for measurement the calculations showed above figures.)

In another trial he remained up 13m. 37 3-5, but no measurements were taken and he pursued an irregular course.

CONTEST OF DIRIGIBLES.  
First race: Beachey, 4:57 4-5 (inside position); Knabenshue, 5:05. New record for course and record for a race.  
Single lap: Beachey, 5:08 1-5.  
Hillery Beachey, in Gill-Dosh machine, made five-sixths of a lap, reverse way of track. No time taken.

To ascertain, if possible, the causes of the high prices of food products, a conference of all commercial bodies of New York State is to be held in Syracuse, in March. Representatives from the fruit sections of Oregon, California and Washington, together with men from the Middle West and South, will be invited.

INSURANCE WORLD.

Superintendent Hitchcock of New York suggests in his annual report that the insurance companies need a period of legislative peace. At the same time, he asks for an increase of his examining force, as out of the 200 New York companies and associations for which his department is responsible, fifty-three have not been examined in the last five years, and eighteen in from ten to twenty-three years. He thus indicates that the work of the department is in arrears approximately 35 per cent. The fire and marine field is also far in arrears.

The Seattle Chamber of Commerce is asking the fire insurance companies to establish general agencies in the State of Washington. To the companies that do this, it is estimated a volume of insurance business will be turned over sufficient to justify the companies for establishing the agencies. It is believed that 75 per cent of the insurance emanating from the community can be diverted to such companies.

A tabulation has been made of the reports of the fire insurance companies showing the amounts paid to boards of underwriters and tariff associations and for inspections and surveys. This shows that of \$281,902,500 reported in premiums, \$2,501,190 was paid for boards and tariff associations and \$30,425 for inspections and surveys. A comparison of union and non-union companies with equivalent premium incomes shows that the item of board and tariff association expenses for the union companies is two to three times as great as for the non-union companies.

During 1909 there were forty-four stock fire insurance companies organized or projected, while ten reinsured. There were also ninety-eight new life companies organized or projected, over seventy-five on the stock basis, with fifty casualty and miscellaneous companies.

The New York Court of Appeals has held the Great Eastern Casualty Company liable under an accident policy for one-half the principal sum for death by septicemia, although the ultimate cause of death was not due to bodily injury or any kind of an accident. The contract contained the standard clause specifying "external, violent or accidental means," but had a separate clause paying one-half the principal sum for loss of life only resulting from sunstroke, freezing, septicemia, etc. The court held that as the paragraph did not include words in any way expressly or implicitly relating to the prior provisions of the policy, and as the policy was written by the insurer and it has the choice of language in framing the contract, its terms must be construed strictly against the person whose language was used in expressing it.

## LARGE PRICE FOR LAND.

Reported Sale Near Fullerton Nets Snug Sum to Agent—Largest in Orange County.

[BY DIRECT WIRE TO THE TIMES.] FULLERTON, Jan. 19.—[Exclusive Dispatch.] It is reported today on good authority that the Stearns Rancho Company, through its agent, W. J. Hole, has sold nearly 500 acres of Fullerton land southwest of Hall's Olinda oil wells to the Union Oil Company for \$1,000,000.

This is probably the largest sale ever made in Orange county and is practically the last of the Stearns rancho holdings in this county, this company having owned hundreds of thousands of acres in this part of the State.

The property just sold is believed to be good oil land. It is stated that Hole's commission on the sale is nearly \$100,000.

## EYES ON PLUM.

POLITICAL POT IS SIMMERING.

CANDIDATES ARE ACTIVE MUCH EARLIER THAN USUAL.

County Officers Will Not Go Begging This Year—New Primary Law Causes Impetus for First Place in the Field—Some of the Apparent Aspirants and Probabilities.

SANTA ANA, Jan. 19.—County politics are beginning to warm up. With the new primary law and with the evident belief that it is every man for himself, candidates are getting into action for the November election earlier than usual. It is generally understood that every man in the Courthouse will be a candidate to succeed himself.

There are but three Democrats among the county officers—Sheriff Theodore Lacy, Treasurer J. C. Joplin and Supervisor D. S. Linebarger. Up to the present time, no Democrat has come out in opposition to any one of the three.

C. E. Riddick of Fullerton and Howard Wasson of Tustin are Republican candidates for the nomination for Sheriff. H. H. Hale of Placentia has announced that he would be named by the Republicans of the Fullerton district to oppose Linebarger.

The fight for Assessor and Auditor are spicing warm. A. L. Stewart of Fullerton has begun a spirited campaign against W. M. Scott, the incumbent. A third man, Frank Vagstad, who was Assessor before Scott, today entered the race. Auditor C. D. Lester was the first man in the Courthouse to begin to circulate his petition for nomination. His only avowed opponent for the nomination at present is Frank Trickey, a young business man of Santa Ana.

Democrats expect that H. C. Head will be their candidate for District Attorney. Dist. Atty. S. M. Davis will seek the Republican nomination. As yet no opponent has taken the field against him. J. L. McBride, first lieutenant of Co. L, N.O.C., will fight C. R. Schenck, incumbent, for the Republican nomination for Supervisor. Superintendent of Schools P. Mitchell may have L. A. Durfee of Orange as his opponent.

Clerk W. R. Williams, Tax Collector J. C. Lamb and Recorder G. E. Peters are still to learn the name of their opponents, should they have any. Theodore Whittier of Santa Ana will go against George S. Smith, incumbent, for Coroner and Public Administrator. Supervisor D. A. MacMullen of Olive will be opposed by Fred Struck of Orange for the nomination. The Democrats may bring out D. C. Fisher of W. A. Dyer, G. W. Moore of Westminster, who resigned as Supervisor a few months ago to become manager of the Celery Growers' Association, may be a candidate for the nomination against his successor, Supervisor F. R. Thayer of Huntington Beach. Supervisor G. W. Anple is the only man considered a candidate in his district as yet. Supervisor H. E. Smith of Santa Ana may be opposed by F. Lutz for the Republican nomination.

## RIFLE CLUB SHOOT.

The Santa Ana Rifle Club will hold a shoot Saturday at its range for the J. A. McFadden medal, now held by Elmer Cuthbert. The medal goes to the man making the highest score on the 200, 300 and 500-yard targets.

## MARRIAGES.

Marriage licenses: Carl Nelson, 29, and Helen Hill, 31, both of Los Angeles; Albert J. Crawford, 32, and Harriet Lee, 27, of Pasadena; George E. Shell, 22, and Hulda A. Burbank, 20, both of Olive; William P. Poust, 27, of Redlands; Florence Smith, 27, of Los Angeles; Leonard K. Brown, 23, and Florence E. Sharp, 20, both of Los Angeles; Dan Banks, Jr., 21, and Allan Kessler, 18, both of Los Angeles.

## Best weather on earth at Coronado.

## TO IMPROVE LODGE HALL.

Riverside Odd Fellows to Spend Large Sum—Officers Installed—Reception to Pastor and Bride.

RIVERSIDE, Jan. 19.—By unanimous vote the Odd Fellows, of Riverside Lodge No. 282, decided to expend \$4000 on the improvement of the Odd Fellows' building at the corner of Main and Ninth streets. This action was taken last night following the installation of the following officers: Noble Grand, S. G. Drew; vice grand, L. C. Grand; recording secretary, E. H. Marshall; financial secretary, N. A. Jacobs; treasurer, Will Cunnison; warden, W. T. Putnam; conductor, J. L. Davis; chaplain, C. D. Boyer; R.S.G. W. V. Darling; L.E.N.G. W. J. Netherly; R.S.V.G. F. M. Borden; L.S.V.G. N. J. Ostadi; R.S. Fred Loe; L.S.S. I. M. Stow; I. G. J. M. Holland; O. G. J. A. Thompson.

## CHURCH RECEPTION.

Parishioners of the First Congregational Church were guests of Mr. and Mrs. W. A. Furington at a large reception given last evening at their home on Orange street in honor of the pastor, Rev. Horace Porter, and his bride, who have recently returned from their wedding trip.

## SAFE CRACKERS AT WORK.

ANAHEIM, Jan. 19.—[Exclusive Dispatch.] Safe-crackers blew off the inside doors of N. Hart's safe Tuesday night, but secured only \$2. The tools used in opening the safe were taken from the blacksmith shop of A. Henderson of Fullerton.

## May at Wholesale.

One lot, E. R. Long, Bakerfield, Cal.

## INDICATIONS OF OIL IN TUNNEL.

CLAIMS ARE STAKED OUT BY EX-PECTANT MEN.

Espee Decides to Locate Greenhouse and Nursery at Goleta—Finest Cuts in the West Shown at Feline Exhibition—Provisional Promises Made for Some Aviation Events.

SANTA BARBARA, Jan. 19.—Indications of oil in the north portal of the city water tunnel, being driven through the Santa Ynez Mountains, have caused several of the men. Engineer Lee M. Hyde among them, to stake out claims to oil land. The engineer says that he believes oil may be reached by deeper boring. The oil sands were struck at about 5300 feet into the tunnel, and Hyde thinks that oil, in flowing quantities, may be found less than 1500 feet below this. If the field gives further promise Hyde will work his claims.

The Southern Pacific has determined to establish a greenhouse and nursery at Goleta, to raise shrubs, trees and flowers to beautify its various stations and other properties along the line. The parking place for Rancheria street is to have the earnest cooperation of the railroad company, and it is thought that this may have something to do with the selection of Goleta as the situation of the nurseries. President Ripley of the Santa P., who, as chairman of the Civic League committee, addressed a communication to General Manager Calvin of the Espee, has received a reply promising the support of the Southern Pacific in the Rancheria-street scheme.

## CAT CLUB SHOW.

Some of the finest cats in the West are on exhibition at the first championship show of the Santa Barbara Cat Club, which opened yesterday for a three days' session. Mrs. C. D. Hindley, who judged the Los Angeles show, is the organizer, manager and moving spirit of the affair. Two fine exhibits are those of Mrs. Huron Rock and Mrs. C. C. Park of Montecito. Mrs. Park has a kennel of Royal Siamese Temple cats, white, with nose, ears, tail and lower legs nearly black. Two of them, Orys and Marcova, are descended directly from the cats of the royal Siamese household. It was many years before this breed of cats was allowed to be brought out of Siam.

## AIR CRAFT BEE.

Santa Barbara has the airship bee, and plans are on foot to try and raise the cash to get some of the lesser lights now at the Los Angeles meet to come here. Provisional promises have been made to Manager Wilder of the local railroad company and to Attorney Booth, who interviewed aviators at Los Angeles.

## Warm sunny days at Coronado.

For Sale—Make money on ten yearly cuttings of alfalfa. Hales brood poultry, too. Abundant artesian water. Land is cheap. Thermal Realty Co., second floor, 221 W. Third st., Los Angeles.

## FAULTS FOUND.

WOULD AMEND THE STATE LAW.

GRAND JURY FINDS ORCHARD REGULATIONS POOR.

Would Invest More Power in Horticultural Commissioners—Now in San Bernardino Council May Result from Concession Granted to Southern Pacific to Lay Asphalt.

[BY DIRECT WIRE TO THE TIMES.] SAN BERNARDINO, Jan. 19.—[Exclusive Dispatch.] That the State law should be so amended as to place the horticultural affairs of the county under absolute control of the Horticultural Commissioners is one of the recommendations made by the grand jury in its final report, which was filed today. This recommendation, together with one that the supervisors provide additional grounds for County Hospital purposes, to be shared also by the Orphanage and Detention Home, forms the bulk of the final report.

Inquirers would have the spraying method for the eradication of orchard pests abolished and would give the commissioners power to dictate the manner in which fumigating shall be done; also the time, quantity of chemicals to be used and in every manner prevent the operation of fumigators not in absolute accord with the working methods of the commissioners.

## ROCKEFELLER GIVEN THANKS.

Southern Health Conference Expresses Gratitude for Million to Eradicate Hook Worm.

[ASSOCIATED PRESS NIGHT REPORT.] ATLANTA (Ga.) Jan. 19.—After extending a vote of thanks to John D. Rockefeller from his "munificent and humanitarian" gift of \$1,000,000 for eradicating the hook worm disease, a permanent organization to be known as the Southern Health Conference was effected at today's session of the conference on the hook worm.

A resolution was adopted favoring uniform State laws requiring the compilation of vital statistics. Dr. F. H. Harris, of Atlanta, was elected president.

## Lower School.

Delightful home and thorough school for children under eight years. Boys admitted to Kindergarten and Primary Department. MISS THOMAS and MISS MORGROVE, Associate Principals.
